Quick orientation of key instructions

Section 1: Manager Dashboard & Live Telemetry [Module 1]

1.1 Executive KPIs & Financial Pulse
1.2 Daily Sales & GST Tax Reports

Section 2: Menu Management & Out of Stock Toggles [Module 2]

2.1 86'ing Dishes (Out of Stock Toggles)

Section 3: Recipe BOM & Inventory Control [Module 3]

3.1 Formulating Recipe Bill of Materials (BOM)
3.2 Recording Goods Received Notes (GRN)

Section 4: Wastage, Transfers & Staff Management [Module 4]

4.1 Logging Spoilage & Wastage
4.2 Multi-Branch Stock Transfers

HOW TO USE THIS GUIDE

Follow the numbered steps sequentially. Actions requiring manager or supervisor authorization are marked with a Warning icon. Use the glossary at the end for unfamiliar restaurant and tax terms.

Access the Executive Dashboard via the main overview (/) or mobile portal (/mobile/owner).

• Live Gross Revenue: Invoiced sales for the current business day.

• Order Velocity: Total settled bills, active tables, and average order value (AOV).

• Net Operating Margin: Financial pulse computing Gross Sales minus Food COGS, labor, and expenses.

• Urgent Action Badges: Raw materials below par safety levels and expiring batches.

1.2 Daily Sales & GST Tax Reports

Under Finance & Insights !’ Reports (/reports), access accounting summaries:

• Daily Sales Summary: Breakdown of gross sales, discounts, taxable value, and collections.

• GST Tax Report: CGST (2.5%) and SGST (2.5%) breakdown formatted for GSTR-1 filings.

• Payment Split Report: Collections across Cash, UPI, Card, and Customer Loyalty Points.

• Export Options: Download publication-grade PDF summaries or CSV spreadsheets for your accountant.

When fresh ingredients run out during a busy dinner shift:

1. Open Catalog & Inventory !’ Menu (/menu).
2. Locate the dish (e.g., Murgh Dum Biryani).
3. Toggle 'Is Available' to OFF.
4. The dish is immediately disabled across POS, Waiter App, and Customer Table QRs. Staff cannot punch unavailable items.

RestaurantOS calculates exact food cost percentages using transactional recipes:

1. Go to Inventory !’ Recipes and click 'Create Recipe BOM'.

2. Select menu item: e.g., Paneer Butter Masala (Selling Price: ¹320.00).

3. Add Ingredients: Paneer (200g @ ¹420/kg = ¹84.00), Butter (30g @ ¹520/kg = ¹15.60), Tomato Puree (100g = ¹4.50), Cream (40ml = ¹8.80).

4. Automatic Financial Metrics: Total Food Cost = ¹112.90, Gross Profit = ¹207.10, Food Cost % = 35.28%, Gross Margin = 64.72%.

5. Settlement Deduction: When cashiers settle an order, ingredients are deducted from physical stock automatically.

3.2 Recording Goods Received Notes (GRN)

Under Catalog & Inventory !’ Purchases (/purchases):

1. Click 'New Purchase Entry (GRN)'.

2. Select Supplier and enter vendor physical invoice number and date.

3. Enter quantities and purchase prices received (e.g. 50 KG Basmati Rice @ ¹110/KG).

4. Confirm receipt: stock balances update immediately and accounts payable ledger records vendor dues.

When food spoils, spills, or burns in the kitchen:

1. Go to Inventory !’ Adjustments !’ Log Stock Wastage.

2. Enter item, lost quantity, and reason (Expired, Kitchen Spillage, Prep Error).

3. Stock is decremented and financial cost posts to P&L as a direct COGS loss.

4.2 Multi-Branch Stock Transfers

To transfer stock between a central commissary and satellite outlets (/branches/transfers):

• Source branch creates transfer and clicks 'Dispatch' (status becomes IN_TRANSIT).

• Destination branch inspects delivery and clicks 'Receive Transfer'. Stock balances update atomically.

COGS
Cost of Goods Sold — the direct cost of raw ingredients used to prepare food.

GRN
Goods Received Note — document recording vendor delivery into active inventory.

Par Level
The minimum inventory quantity that must be on hand before reordering.

86'd
Restaurant term meaning an item is completely out of stock and cannot be served.

- [ ] 1. Review morning low-stock warnings and par levels at 11:00 AM.
- [ ] 2. Log daily vendor deliveries into Purchases (GRN) on the day received.
- [ ] 3. Verify recipe BOM food cost percentages when supplier prices change.
- [ ] 4. Inspect kitchen wastage logs and investigate excessive prep losses.
- [ ] 5. Review clock-in/out timestamps under Staff Attendance.
- [ ] 6. Audit daily cash register opening and closing floats.
